

Making Prints of your Artwork?

There are a lot of factors when deciding what you want your prints to look like. Here is a guide to making Fine Art Prints at J2 Blueprint:

1. The File/ Scanning

-If you have files of your artwork already be sure to give us the **highest quality file** you have. This will give you the highest quality print. **300 DPI or higher** is recommended.

-If you have your Original Artwork and need to create a file to print from No Problem!

We scan your art in house at a high resolution to get the best prints possible.

Then we can write the files to a disc, thumb drive, or email them to you for future prints.

**These prices do not include pick up, delivery, or special handling charges.

File Share priced as follows-

all Fine Art scans will receive a High resolution print file(TIFF) and a Lower resolution file(JPEG) for quick view, socila media, websites, etc.

CD	\$7.50
Flash Drive	\$15.00
File Share Link	\$10.00
File Write to Customer Flash/CD	\$5.00

Scans are priced as follows -

we will choose the smallest size your art will fit within to price.

8.5x11"	\$15.00 Each
12x18"	\$25.00 Each
24x36"	\$40.00 Each
36x48"	\$50.00 Each
36x60"	\$65.00 Each
HALF BED - Tiling 36x36" 5 Piece Limit	\$55.00 Total
FULL BED - Tiling 36x60" 10 Piece Limit	\$85.00 Total

2. The Print

-**Matte Matte** is our basic archivable paper; thicker than standard Bond it makes great prints with its Bright white color.

-**Gloss Photobase** is a high gloss finish photo paper that catches great detail.

-**Satin Photobase** is a slightly textured photo paper, not a glossy and less glare for certain image types.

-**Watercolor Paper** is a thicker, off-white, textured archivable paper, high intensity color.

-**Canvas** is a ready to stretch material, high texture, slightly lighter than watercolor paper, and also has high intensity colors.

Paper Pricing: Matte Matte is \$2.50 per sq/ft

Gloss Photobase is \$5.00 per sq/ft

Satin Photobase is \$5.00 per sq/ft

Smooth Watercolor Paper is \$8.00 per sq/ft

Textured Watercolor Paper is \$10.00 per sq/ft

Canvas is \$10.00 per sq/ft

**stretched canvas is priced per size in addition to the printing cost

You can always ask questions or if you are simply re-ordering you can just upload your job to our website! Go to www.J2B.com and click the  button.

Then drag and drop your files and choose from the options listed.

There is a spot for notes if you prefer to just write out the instructions as well.

Thank you ~ Fine Art Department, christine@j2b.com

The WideTEK 36ART

[Click Here to Watch How it Works!](#)

The **WideTEK® 36ART** enables **contact free** scanning of works of art like oil and acrylic paintings, watercolors, charcoal and pastel drawings, mixed media collages and antique works of art - at 600dpi in formats up to 914 x 1524mm / 36 x 60 inches.

The new **WideTEK® 36ART** was designed specifically for archiving and reproduction of works of art. Museums can digitize their own collection for sale as a print or for publication on the internet or in catalogs. With the contact free feature you can now reproduce and archive more items with even less handling required.

Scan with: **Smooth Surface Feature** or **Textured Surface Feature**

Original artwork is moved under the CCD camera elements completely contact free, protecting the art from any damage and making it possible to scan anything from a framed painting to an old book.
